

Simply Enchanting

An enchanted bedroom sprung to life at the hands of award-winning designer **Dina Bandman** of San Francisco's Dina Bandman Interiors. Her sophisticated and feminine take on a retreat-like space drew crowds at this year's San Francisco Decorator Showcase. Bandman echoed the soft magnolia blossoms on the de Gournay wallpaper with a jaw-dropping installation of plaster flowers delicately gracing a Michael Taylor mirror and sprouting skyward toward the ceiling. A serene palette that ranged from crisp white to blush was expertly combined with clean lines and tailored linens for a luxe contemporary look.
